

Planning Next Steps with Screening Results

Educators can use assessment data to make informed decisions for students. Prolific offers reports that help interpret results and guide planning, assisting leaders in determining:

1. What percentage of students reach grade-level benchmarks?
2. Which students need more support to meet these goals?

Percent by Performance Report

To see what percentage of students meet benchmark targets, check the Percent by Performance Report in any one-click report.

This report is generated from assessments included in the one-click report for which target scores have been established. Users are able to view the number and percentage of students by performance band. In Prolific, the Percent by Performance graph reflects filters applied on the one-click reports page, allowing users to specify and examine any targeted group.

Percent by Performance Level						
Assessments	Exceeds Target	Meets Target	Approaching Target	Moderate Target	Below Target	Total Student Count
FAST aReading - Fall '25-'26 Overall - Scale Score	32.81% (21 of 64 students)	12.5% (8 of 64 students)	6.25% (4 of 64 students)	NA	48.44% (31 of 64 students)	64
FAST aReading - Winter '25-'26 Overall - Scale Score	32.81% (21 of 64 students)	9.38% (6 of 64 students)	15.63% (10 of 64 students)	NA	42.19% (27 of 64 students)	64
FAST aReading - Spring '25-'26 Overall - Scale Score	29.69% (19 of 64 students)	10.94% (7 of 64 students)	21.88% (14 of 64 students)	NA	37.5% (24 of 64 students)	64
Percent Attendance - '25-'26	67.65% (46 of 68 students)	20.59% (14 of 68 students)	8.82% (6 of 68 students)	2.94% (2 of 68 students)	0% (0 of 68 students)	68
Total Referrals - '25-'26	100% (68 of 68 students)	0% (0 of 68 students)	0% (0 of 68 students)	0% (0 of 68 students)	0% (0 of 68 students)	68

Our aim is for all students to reach benchmark targets, but progress towards this goal is also recognized. If 30-50% of a class falls short of the target, or the median score is below the benchmark, class-wide intervention is advised. These interventions usually involve more targeted practice with feedback to build essential skills.

Summary Statistics Report

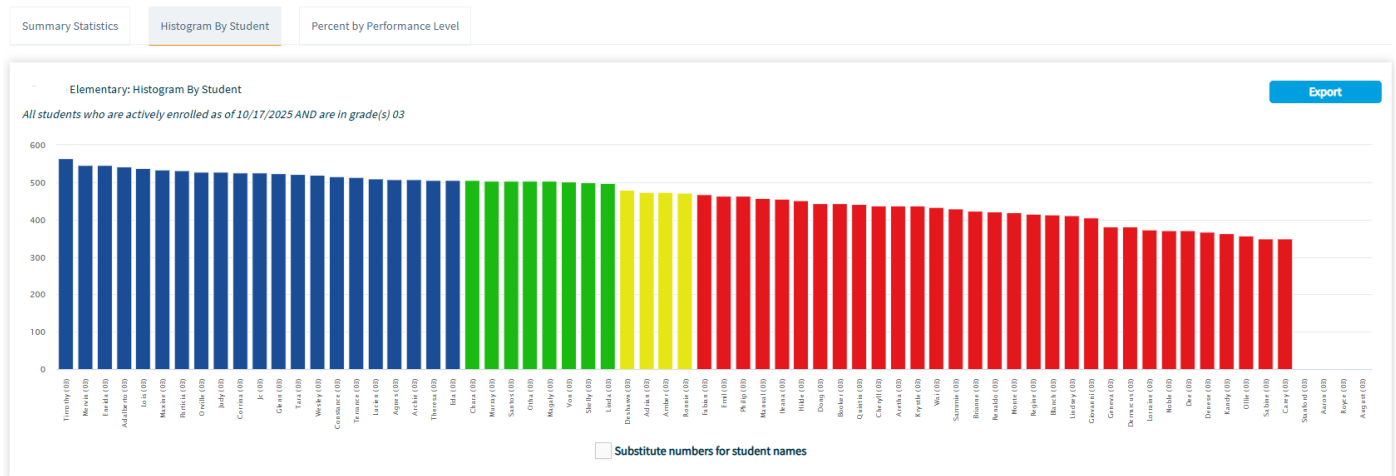

Prolific provides summary statistics for every completed assessment, enabling users to review score distributions across demographic groups. This report helps educators identify achievement gaps and patterns to inform improvement efforts.

After reviewing these reports to assess the percentage of students meeting benchmark learning goals, educators then identify students who may be at risk of not meeting these goals and who might need further intervention.

Histogram by Student Report

The Histogram by Student report can be used to review student groupings, assess performance from both a local normative and a criterion perspective, and communicate with families regarding how a student's results compare to expectations and peers.

One-Click Report

Sorting assessment results with one-click reports lets educators quickly identify students falling below expectations and compare their performance across assessments. Reviewing results together can help teams spot trends that indicate where support is needed.

Student Profile Page

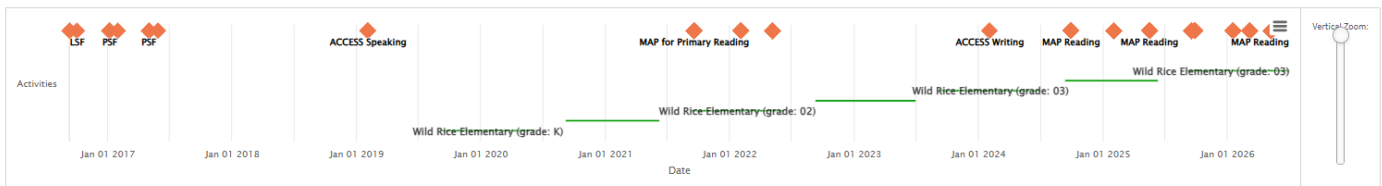

In Prolific, users may access a student's complete test history by selecting the student's name. The student profile page displays a report of all prior intervention supports and includes copies of any progress monitoring.

Next Steps

After reviewing assessment results, especially for students whose scores are below the targeted levels, educators can identify which students may require additional support and consider appropriate types of assistance. Once a decision is made to provide supplementary support, users may assign interventions or progress monitoring plans directly from any report page. All assessment data, intervention records, and monitoring graphs are maintained in the student profile to offer educators a full overview of each student's information for future planning.
