

## Intervention & Assessment Subject Areas

In Proliftic, interventions and assessments are assigned to a subject area upon creation.

### Available subject areas include:

- Attendance
- Behavior
- Math
- Reading
- Language
- Science
- Writing
- Multiple (assessment only)

All users can use the subject filter to quickly find specific assignments when assigning progress monitor schedules or interventions to students. Additionally, Content Managers and District Leads can utilize these filters to help manage progress monitor schedule and intervention banks for their sites.

The screenshot shows a student profile for 'Alves, Ariel' with ID 4999000837173. Below the profile information, there are three tabs: 'Local ID 837173', 'Date of Birth 03/31/2019', and 'Grade 01'. At the bottom of the profile section, there is a row of subject filters: 'All', 'Reading', 'Math', 'Behavior', 'Attendance', 'Science', and 'Other'. The 'All' filter is highlighted with a red box, and the entire row of filters is also enclosed in a red box. Below the filters, the text 'Activity Timeline' is visible.

In the upper left section of the student profile page, every user can use subject filters to focus on a student's history within a specific subject area.
